Deployment Medical Training Support Program

20 May 2004

Concept

Force Integration Division

Develop a means to:

- facilitate the provision of individual medical training for deploying units that utilize Ft. Lewis as their Power Projection Platform
- focus on 91W and medical/trauma oriented training

Deployment Medical Training Support

Force Integration Division

Major training facilities:

- JMTC
- Andersen Simulation Center
- MAMC

Organization

Deployment Medical Training Support Program

- **Program Format:** LOI; upon implementation, weekly meetings chaired by executive agent

- **Participants:** Western Regional Medical Command (FID, Ops); Madigan Army Medical Center (Madigan Consolidated Education, Quality Services, Nursing, Simulation Center, Log); Joint Medical Training Center; I Corps Surgeon; CHPPM-West; Clinical Investigation Division; 4/91st Training Div, JFHQ, Supported Unit

- **Customers & Stakeholders:** Supported unit; Installation; Compo 1-3; AMEDD; FORSCOM; DA

Deployment Medical Training Support

Program Process

1. Executive agent solicits training requirements via I Corps R&S

2. Unit determines medical training requirements

3. Ex agent validates & coordinates training requirements at R&S

4. Ex agent locks in training dates with unit and supporting training agencies

5. Supporting training agencies conduct & evaluate training; Ex agent monitors tng

91W Training

Deployment Medical Training Support Program

- 20 Day Program: two 10-day phases
- Training includes theories and practices of Basic Trauma Life Support or Pre-hospital Trauma Life Support, Trauma AIMS (advanced airway, intravenous therapy, medications and pharmacology, shock management), and CPR
- Nationally Registered Emergency Medical Technicians Exam
- SACMS-VT (Semi-Annual Combat Medic Skills Validation Test)

Crises Resource Management

Deployment Medical Training Support Program

- Scenario-based training geared toward problem solving, team building, and crisis management in medical and trauma emergencies
- ACLS, ATLS, PALS, and 91W skills are utilized

ACLS (Advanced Cardiac Life Support)

Deployment Medical Training Support Program

- All responses necessary to deal with sudden and often life-threatening events affecting the cardiovascular, cerebrovascular and pulmonary systems
- Responses include CPR, medication, defibrillation/pacing and monitoring

PALS (Pediatric Advanced Life Support)

Deployment Medical Training Support Program

- All responses necessary to deal with sudden and often life-threatening events affecting the cardiovascular, cerebrovascular and pulmonary systems of children
- Responses include CPR, medication, defibrillation, and monitoring

Fixed Facility Training

Deployment Medical Training Support Program

- 91A (Medical Equipment Repair)
- 91E (Dental Specialist)
- 91G (Patient Administration Specialist)
- 91K (Medical Laboratory Specialist)
- 91M (Hospital Food Service Specialist)

Green indicates training provided to the 81st eSB for Mar 04 deployment

Fixed Facility Training

Deployment Medical Training Support Program

- 91P (Radiology Specialist)
- 91Q (Pharmacy Specialist)
- 91R (Veterinary Food Inspection Specialist)
- 91V (Respiratory Specialist)
- 91X (Mental Health Specialist)
- 91WN9 (Physical Therapist Specialist)

Green indicates training provided to the 81st eSB for Mar 04 deployment

Preventive Medicine/Public Health

Deployment Medical Training Support Program

- Field Sanitation Training
- Public Health Training (prevention, recognition, and treatment of infectious and communicable diseases)

Medical Logistics Support

Deployment Medical Training Support Program

- TCAM (TAMMIS Customer Assistance Module) training for Brigade or larger elements
- Med materiel items support (Class VIII)
- OPD for Med Log staff
- Theater Med Log CONOPS review

Combat Life-Saver

Deployment Medical Training Support Program

- Self-aid or buddy aid (SABA) training
- Advanced First Aid (IV)

MAMC augments I Corps/91st Tng Div with instructors

Baseline Data

Deployment Medical Training Support Program

TRAINING	# CLASSES	# TRAINED
CRM	1	36
*ACLS	1	20
*PALS	1	24
*BLS	2	135
Combat Lab	7	121
91W Transition	2	167
Combat Lifesaver	5	549

CRM = Crises Resource Management

*** Certification Granted**

In addition, low density MOS training also provided

Training Summary: Medical training provided to the 81st eSB for Mar 04 deployment

Deployment Medical Training Metric

Force Integration Division

- Number of Reserve Soldiers, by unit, that request training, by training program and:
  - Receive requested training prior to deployment
  - Determine training to have enhanced performance in theater
- Frequency of report – annually, due month following demobilization
- Goal – requested training = training received = enhanced theater performance

Due Outs

Deployment Medical Training Support Program

TASK	SUSPENSE
Finalize Training Request	1 Jun 04
Staff LOI coordinating draft	1 Jul 04
Hand off to proponent	1 Sep 04
